

## Premium Gun Oil

Our premium CLP gun lubricant is comparable to the most popular quality national brands – cleaning, lubricating, and protecting your gun to ensure high performance and accuracy. Similar to Hoppe's Elite®, this blend of cleaning agents, corrosion inhibitors and surface treatments safely penetrates the pores of metal to help clean all types of fouling and powder residues. Our premium gun oil displaces non-visible moisture, neutralizes fingerprint acids, provides a light lubricating layer to protect against metal to metal wear as well as rust, and yet won't gum up, providing longer-lasting protection throughout your firearm. Effective in extreme temperatures, this gun oil is manufactured to meet the needs of law enforcement and military gun owners as well as marksmen and hunters. Our product is ideal for the serious shooters. It provides protection for carbon steel and stainless steel barrels and is environmentally safe.

*Establish your own line of gun lubricants*

Our gun oil comes packaged in the industry standard containers. We also offer several cap varieties and colors for you to choose from when customizing your product line. Of course the product is finished with a high quality label where you can promote your brand name in the style of your choosing. We are also able to customize products according to your specifications. Our most popular packaging choices are the 4 ounce bottle for traditional sales and the 1 ounce bottle as a promotional give away or thank you gift. Don't be intimidated by artwork, as we have professionals who can assist you along the way. You are invited to be as involved in the process as you wish; send us your completed artwork or have us do all of the work for you, either way your artwork is free of charge.

*Standard bottles*

## Standard Packaging

Gun oil is package in either a 1 ounce or 4 ounce bottle. The standard packaging for both products is a white HDPE cylindrical bottle. Both come with a ribbed black top that has a flip open spout. Our standard display box holds 16 – 1 ounce or 12 – 4 ounce bottles of oil and comes with four customized labels: one for the top, one for the front, and one for each side as pictured on the right.

*Standard display box of 4 oz. bottles*

## Synthetic Gun Grease

This advanced formula is engineered to meet the most demanding needs in firearm lubrication and protection. Synthetic Gun Grease protects your firearms from corrosion and wear while reducing friction to ensure smooth, reliable functioning of all moving parts. The syringe style packaging delivers the grease exactly where you need it. Performance proven in extreme weather conditions and temperatures -65° F to +350° F, this product will also work great on all your outdoor sports gear.

**Synthetic Gun Grease Syringe**

**Pure Silicone Oil**

## Gun Brite Silicone Oil

Just a few drops of this low-viscosity pure silicone oil renews your favorite gun rag or wipe-down cloth to give your gun's finish a fresh, lustrous appearance. The penetrating formula gets into those hard-to-reach places to help keep your valuable guns clean and protected from rust and fingerprints. This odorless oil leaves a showroom shine on all your guns. Works great on knives, fishing reels, and all of your fine outdoor gear.

## Sheepskin & Silicone Oil Gun Polish Kit

**Gun Polish Kit**

Our high quality gun wipe down kit has everything you need to give your gun's finish a fresh, lustrous appearance packaged in a convenient container. The silicone oil's penetrating formula gets into those hard-to-reach places to help keep your valuable guns clean and protected from rust and fingerprints. The odorless low-viscosity oil leaves a showroom shine on all your guns. Works great on knives, fishing reels, and all of your fine outdoor gear.

The kit includes a 1/2 ounce bottle of Gun Brite pure silicone oil, a 5 x 3 inch natural sheepskin application pad, a 10 x 10 inch flannel polishing cloth, and instructions all housed in a reusable storage container.

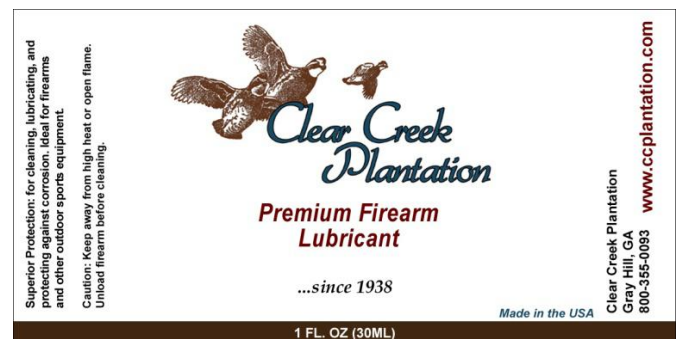

## Rust Inhibiting Grease

Similar to RIG®, our advanced formula penetrates metal surfaces and creates an impenetrable barrier against rust and corrosion, protecting your firearms during storage. Apply a thin film to metal surfaces after cleaning and this semi-clear and non-staining grease will help keep your firearms rust free when storing for extended periods of time.

## Labels and Artwork

Private labeling is just that: creating a label and artwork that represents you and your expectations for quality to your clients. At Wirtzy Specialties we are able to print high quality labels in house on demand and in small runs. What this means to you is incredible flexibility in the designing, proofing, and working with your label. Our labels are digitally printed on polypropylene stock thus are waterproof, chemically resistant, and hold up well afield. We are capable of working with established UPC codes or can obtain and help you through the process of implementing an appropriate code for your product.

## Options and Customizing

If our standard product does not match your needs, we are also able to create new formulations specific to your requests and can customize packaging in a variety of ways as well. For example, several bottle sizes, styles, and cap configurations and colors can be used. Clamshells are another packaging option you may consider. We will work to manufacture the ideal product for your name brand.
